This big purple **monster**
has a big yellow mouth, three little eyes,
a short nose, and two circle ears.
It's scary and cute!
It is a funny monster.

COVID-19: Quarantine and Vaccine

By Andy Mo

Going into the third year of COVID, and an outbreak last in May for Taiwan, there are 2 things I think that matter, which are Vaccines and Quarantine.

My dad went to the US recently, and:

1. He had to take 2 vaccine doses before, and
2. He had to quarantine for 14 days.

I wrote this on the date my dad would come back. Taiwan is one of the strictest countries on COVID-19.

So let's talk about Vaccines and Quarantine.

Topic 1: Quarantine

2 weeks. That's long enough without being able to see anyone.

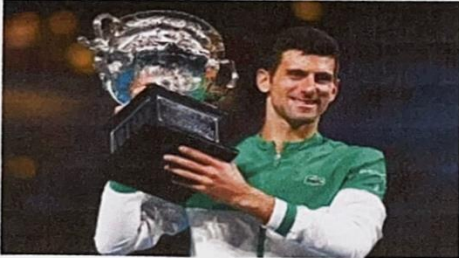

If don't go meet some people soon, you'll freak out. Humans are animals that need to be together.

But why 14? Why this specific number?

Well, for COVID-19, the germ is usually most active in the first 2 weeks. If we can find it in a human's body soon, then there won't be fuss like where did the victim go, did he meet anyone, etc.

Topic 2: Vaccines

COVAX, AZ, BNT. 3 types of vaccines. The vaccines actually work. If you can get 70% of people to take vaccine, this COVID might end. But some people refuse.

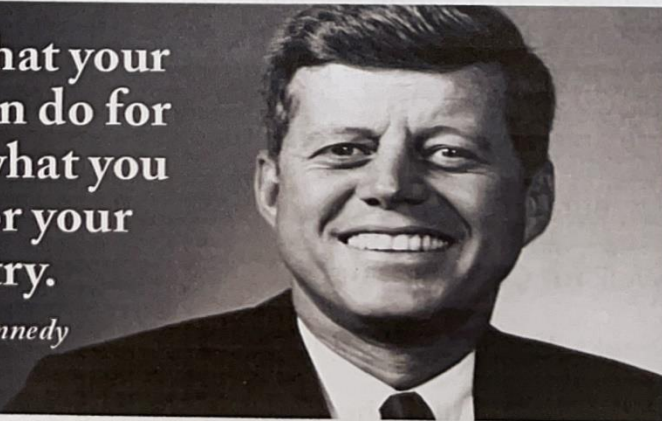

Take this guy. Novak Djokovic. Yeah, he does not want to take COVID vaccine.

So should the government force people to take vaccines?

After this discussion, tell self this:

**Ask not what your
country can do for
you - ask what you
can do for your
country.**

John F. Kennedy

If you do your piece, we can end COVID-19.
