## My Graduation Speech

by 60714 黃盈馨

Hello everyone, I'm Jenny. I will graduate from Minghu Elementary School in June.

I want to thank the teachers who taught me patiently. Most of all, I would like to thank my homeroom teacher, Ms. Liu of class 607, because she taught me very patiently and helped me improve my handwriting. Without her, I will not push myself to better my handwriting.

I also want to thank my classmates, who helped me when I made trouble. During COVID 19, although we were all wearing masks, but we had not forgotten our friendship.

In school, I think the most difficult subject is Mandarin Chinese because we had to remember a lot and to understand a lot. My teacher and my friends helped me to find a solution, which is to read, and practice a lot. Practice makes perfect. I'm very happy to study with my classmates in these six years. I hope we can see each other in the future.

## My Graduation Speech

by 60717李欣芬

Good evening, everyone! My name is Elsa. Today is Friday, June 17th, 2022 and I'm going to graduate from Minghu Elementary School. I feel very happy and a little sad.

First, I have to thank all the teachers here. They're kind and patient. Sometimes, when we don't do our homework or when we are being naughty in class, they'll still smile at us and urge us. My teachers also taught us a lot of knowledge and shared with us invaluable experiences. Classes are also interesting and we had fun. For example, my first and second grade class teacher always encouraged me to take part in competitions and taught me a lot of speech skills. These experiences helped me a lot in building self-confidence.

Then, I have to thank my fellow classmates. You're friendly and kind. You like to help people. You study with me, you play with me, and you have so many memories with me.

Now, I feel very sad because most of us will go to different junior high schools. In the future, we'll have less time to meet with each other. I hope during summer vacations, we can get together to create our memorable time.

Wish all of you a beautiful future and all the best!

## Going for the Dream by 60724 Irene 吳恩瑀

I want to be a kindergarten teacher when I grow up. I think being a kindergarten teacher is wonderful. It will be fun to teach little children and play with them.

There are many things I have to do to become a good kindergarten teacher. First, I have to read a lot of good books because I want to tell children good stories. Next, I have to learn how to play the piano because I want to teach music to children. I like teachers who can sing and play music. I also have to learn to draw well because I want to help children draw beautiful pictures.

I am happy when I think about my dream. I can't wait to grow up and become a kindergarten teacher. I know I will be a great teacher.
